Work Assignments
for the Rib Cook
Today!!!**

We had a great board meeting last Tuesday night that was preceded by a great education meeting.

OK, maybe I am overusing great, but there was a good energy from the prospective members (and our two newest members). And our board discussion regarding membership, meeting locations and ways to help members be accountable to the club (really being accountable to their own commitment).

I am very grateful to Elizabeth's Restaurant for accommodating our club during these times of our wandering "in the wilderness" and for the times we had held our Sweetheart Banquet at their place. I chose the conference room at WRMC simply to have our banquet at a different place. It may not seem as "romantic", but this town is quite lacking in those type facilities. I hope you will join your fellow Kiwanians in a nice meal with your "sweetie". The menu and price has not been set yet, but a sign up sheet will be passed around today.

It's a great day to be a Kiwanian.

TODAY'S SONG

Hey, Look Us Over

Hey, look us over,
Lend us an ear,
We of Kiwanis hail from far and near.
We're here with a purpose,
Members with a goal,
Whenever we're given a job to do
We sure pour on the coal!
And while we sing here together,
Good members all,
We of Kiwanis,
Answering the call.
We remember our motto
"we're Builders all,"
So kindly give us room!
Hail Kiwanis! Here we come!

Frequently Asked Questions

1. Why did Kiwanis International choose maternal and neonatal tetanus?

Kiwanis International chose to eliminate maternal and neonatal tetanus (MNT) because there is already a proven action plan in place, the results are measurable and Kiwanis could partner with a successful organization. In addition, Kiwanis will be a leader and global health advocate on this issue.

2. Why is combating MNT so important now?

Every day in the developing world, 22,000 children die of preventable causes—before reaching their fifth birthday. The United Nations and other organizations have made it a priority to decrease this number. Kiwanis International is eliminating a disease that kills one baby every nine minutes. By targeting the poorest, most underserved women and children on Earth, The Eliminate Project will pave the way for other interventions that will boost maternal health and child survival.

3. What about sustainability?

A woman who receives three doses of tetanus vaccine is protected against tetanus for the majority of her childbearing years. When an immunized mother gives birth, she passes her immunity along to her child. The baby will require booster shots to remain protected. A portion of the funds raised by the Kiwanis family will be devoted to ongoing education and sustainability efforts.

4. How will the funds be used?

Funds are given to the Kiwanis International Foundation (KIF), KIF makes grants to UNICEF, and UNICEF works with their partners in each country to direct funds to the MNT elimination efforts specific to each country.

5. What percentage is taken out for fundraising expenses?

Approximately 10 percent of the budget will be used for fundraising-related expenses. This is a common, if not low, percentage for campaigns of this magnitude.

6. What is happening with elimination efforts as we prepare our fundraising campaign?

UNICEF continues to carry out MNT elimination efforts in countries such as Cambodia, where MNT is on the brink of elimination. Funds raised by the Kiwanis family will fill the funding gap and help ensure MNT will be eliminated in the 38 countries where it remains a threat.
